

Dear Partner:

Join the [IRS on Thunderclap](#) to promote a national “Paycheck Checkup,” because everyone should take a close look at their tax withholding this year.

Following major tax law changes, the IRS is urging taxpayers to check their tax withholding to make sure they have the right amount of tax taken out of their pay for their personal situation. Having too little tax withheld could mean a tax bill or a penalty. And with the average refund topping \$2,800, some may prefer to get more money in their pay now. So help us get the word out -- the earlier they check, the more time there is for withholding to take place evenly.
